

# David Emmanuel Morales Moreno

Bachelor Electrical Mechanical Engineer 29 years old

C Arroyo seco 1200 Int 136, Geovillas los Olivos, 45601, Tlaquepaque, Jalisco

# **WORK EXPERIENCE**

#### **TATA Consultancy Service**

**Engineer QA** 

As part of a testing team, I use multiple tools that ease the obtaining of results, during the test running under different conditions. I am working with software sandbox for web-based applications as Selenium, mainly, using java as a programming language, further I correct compilation errors that arise during testing times.

### GR Ingeniería Eléctrica

Supervisor of Electromechanical Works in Medium and Low Voltage

When I worked for the company, I dedicated myself interpreting and drawing electrical blueprints for construction work, calculating the electrical charge of each of the elements and coordinating the different work groups, that were distributed throughout the metropolitan area of Guadalajara.

## Skills

#### **Coding Languages**

Java\*, JavaScript\*, HTML5/CSS3\*, SQL\*, Selenium\*, PLC\*\*, Phyton\*\*

- \*Medium Level
- \*\*Basic Level
